

LASTOLITE BLACK VELVET COLLAPSIBLE BACKGROUND

PRICE: £110

Web: www.lastolite.com

■ Ideal for low-key style work, this collapsible background from Lastolite is crease-resistant for a flat look and folds down to one third of its original size for easy transportation and storage. The black velvet material means it's superb at absorbing light, giving a deep, evenly coloured result. The background folds down into a neat carry-case, and springs into shape in a second. Lean it against a wall or couple the background with a Lastolite Background Support (£61). It's a versatile tool that's perfect for roaming portrait photographers.
